

## **Dr. Marten Klukkert appointed new Chief Customer Officer at Fette Compacting**

**Schwarzenbek, January 9, 2025 – Fette Compacting extends and strengthens its management level: Dr. Marten Klukkert was appointed Chief Customer Officer (CCO) with effect from January 1, 2025. He thus complements the previous management duo of Joachim Dittrich (CEO) and Anke Fischer (CFO) to form a strong management trio. In his new role, he will assume strategic responsibility for global customer support and further development of the service portfolio and process partnerships of the world’s leading specialist for integrated solutions in industrial tablet production.**

Dr. Klukkert has been a valued member of the Fette Compacting family since 2015. After completing his doctorate in pharmaceutical technology in 2015, he began his career at the company as a pharmaceutical expert in the Technology Center. In the years that followed, he demonstrated his outstanding expertise and commitment in various management positions, most recently as Vice President Customer Development Center.

Joachim Dittrich, CEO of Fette Compacting, emphasizes the significance of this decision: *“Dr. Marten Klukkert is the ideal candidate for the position of Chief Customer Officer. With his impressive technical expertise and his deep understanding of our customers’ needs, he will play a key role in further developing our strategic realignment, which focuses on customer orientation. I am delighted to have him at our side in this new role.”*

*“The appointment of Dr. Marten Klukkert as Chief Customer Officer is a significant gain for our corporate management and, ultimately, for our*

*customers, too. I look forward to joining him and Joachim Dittrich in tackling the challenges of the future and continuing to write the success story of Fette Compacting,”* underlines Anke Fischer, CFO of Fette Compacting.

### **Together – from lab to production**

By appointing Dr. Klukkert, Fette Compacting is clearly setting its focus on customer orientation and innovative partnerships. This change in the management structure underlines the importance of the ongoing development of close partnership-based cooperation with customers as a central component of the corporate strategy.

Fette Compacting is establishing itself as a comprehensive process partner offering machines and tailored solutions for the entire product life cycle: The company supports manufacturers from the early stages of formulation development with comprehensive services and technologies to accelerate the market launch of tablets and increase efficiency throughout the product life cycle.

Dr. Marten Klukkert expresses his thanks for the trust placed in him and starts his new tasks with an abundance of energy and a clear vision: *“I am looking forward to actively shaping the future of Fette Compacting. My goal is to support the entire process from the initial idea to the saleable product with our decades of expertise and in an intensive, partnership-based exchange with our customers. Together with my team, I want to rethink things, question processes, and develop innovative solutions that offer our customers real efficiency gains and measurable added value.”*

### **About Fette Compacting**

With more than 6,000 machines installed, Fette Compacting is the global technology leader in integrated solutions for industrial tablet production. The company has specialized in high-performance machines for the pharmaceutical, nutrition, and
